EXPERIENCE

Founder, Product Manager & Frontend Engineer

Independent Product Venture (Stealth)

Apr 2025 - Present Remote

- Founded and lead an independent, stealth-stage web product as sole Product Manager and Frontend Engineer, owning discovery, roadmap, UX, engineering, and release end to end.
- Ran 40+ user discovery interviews and competitive analysis, converting findings into PRDs, personas, and a RICE-prioritized backlog of 60+ user stories across 3 shipped milestones.
- Architected the product in Next.js (App Router), TypeScript, and Tailwind CSS with a 30+ component design system, cutting feature build time by 40% and holding a 95+ Lighthouse performance score.
- Engineered a type-safe REST layer on Prisma ORM and PostgreSQL with JWT authentication, automated releases through GitHub Actions and Vercel, and A/B tested onboarding to lift completion by 25%.

Frontend Engineer

Optus EdTech

Apr 2024 - Apr 2025 Remote

- Migrated a legacy multi-page platform into a single-page React application, improving customer engagement by 10% and eliminating full page reloads across core user journeys.
- Cut initial page load time by 35% via code splitting, lazy loading, asset compression, and React memoization, directly improving session retention.
- Shipped 25+ reusable, responsive React and Next.js components in Tailwind CSS from Figma designs, and redesigned UI workflows to reduce task completion time by 30%.
- Integrated RESTful APIs with robust loading and error states, and improved SEO and accessibility using semantic HTML, ARIA attributes, and Core Web Vitals optimization.

Java & DSA Trainer (Mentor)

CoderHouse

Jun 2024 - Nov 2024 Remote

- Mentored 300+ students in Java and Data Structures & Algorithms, designing 40+ lesson plans across Recursion, Trees, Graphs, and Dynamic Programming that raised batch assessment scores.
