Education

Bachelor of Technology (B.Tech), Computer Science & Engineering **2020 – 2024**
Lovely Professional University | CGPA: 7.4 / 10 *Phagwara, Punjab*

Experience

Founder, Product Manager & Frontend Engineer **Apr 25 – Present**
Independent Product Venture (Stealth) | Next.js, TypeScript, Tailwind CSS, PostgreSQL. *Remote*

- Founded and lead an independent, stealth-stage web product as sole Product Manager and Frontend Engineer, owning discovery, roadmap, UX, engineering, and release end to end.
- Ran 40+ user discovery interviews and competitive analysis, converting findings into PRDs, personas, and a RICE-prioritized backlog of 60+ user stories across 3 shipped milestones.
- Architected the product in Next.js (App Router), TypeScript, and Tailwind CSS with a 30+ component design system, cutting feature build time by 40% and holding a 95+ Lighthouse performance score.

Frontend Engineer **Apr 24 – Apr 25**
Optus EdTech | React.js, Next.js, Tailwind CSS, RESTful APIs. *Jabalpur, MP*

- Migrated a legacy multi-page platform into a single-page React application, improving customer engagement by 10% and eliminating full page reloads across core user journeys.
- Cut initial page load time by 35% via code splitting, lazy loading, asset compression, and React memoization, directly improving session retention.
- Shipped 25+ reusable, responsive React and Next.js components in Tailwind CSS from Figma designs, and redesigned UI workflows to reduce task completion time by 30%.
- Integrated RESTful APIs with robust loading and error states, and improved SEO and accessibility using semantic HTML, ARIA attributes, and Core Web Vitals optimization.

Java & DSA Trainer (Mentor) **Jun 24 – Nov 24**
CoderHouse | Java, Recursion, Trees, Graphs, Dynamic Programming. *Jabalpur, MP*

- Mentored 300+ students in Java and Data Structures & Algorithms, designing 40+ lesson plans across Recursion, Trees, Graphs, and Dynamic Programming that raised batch assessment scores.

Projects

Sort & Visualize | *Astro, JavaScript, Tailwind CSS.* **Jun 26 – Present**

- Built and launched a free, interactive web app that reached 2,000+ users worldwide in its first 2 months, animating 10 sorting algorithms with live pseudocode, two-way step controls, and comparison and swap counters, backed by an SEO-optimized library of 42 guides.
- Engineered the visualizer in dependency-free JavaScript, precomputing each sort as frames so users can rewind any step.
- Fixed a Cloudflare Pages URL mismatch that left 50 of 51 sitemap URLs redirecting, and added a crawl check to guard it.
- Live Link: https://sortandvisualize.com/

3D T-Shirt Designer | *React.js, Three.js, Node.js, Firebase, Tailwind CSS.* **Mar 23 – Aug 23**

- Developed a real-time 3D product customizer in Three.js letting users apply colors, logos, and text to a live rotatable model and export the result, with Firebase authentication and protected routing.
- Served as Project Admin in GirlScript Summer of Code 2023, reviewing and merging 240+ pull requests from 55+ contributors.
- Grew it into a multi-page community platform with a Firestore-backed rich-text blog and an Express newsletter service.
